WORK EXPERIENCE

HealthCentral, New York, NY

June 2026 – Present

Business Intelligence Analyst, AI

- Developing campaign performance data products integrating our DWH Snowflake pipelines, reducing reporting cycle time by 90% and enabling real-time visibility into DTC and HCP campaign performance.
- Engineering and maintaining scalable BI dashboards in Sigma and Power BI, engineering custom data models, DAX measures, ETL and business logic layers that standardize KPIs across 9 brands and 50+ stakeholders for internal teams and client-facing accounts.
- Leading business analysis and process research to identify manual reporting inefficiencies across teams, driving transition to automated workflows using AI-assisted tools and LLM pipelines, eliminating 4 hours of manual work per day and improving data quality and scalability across 5+ recurring reports.

The Walt Disney Company (Disney+), New York, NY

January 2026 – June 2026

Growth Marketing Analyst Graduate Intern

- Built AI-powered automated weekly reporting pipeline using Looker, SQL, Claude Code, and LLM tools, reducing reporting time by 90% and delivering interactive HTML executive dashboards with real-time conversion insights.
- Managed 20+ global Disney+ landing pages with +100 million monthly impressions, executing A/B tests leveraging GA4 and backend SQL data queries to improve CTR, conversion rate, and sign-up performance across global markets.
- Engineered Looker Studio dashboards with dynamic region segmentation and KPI tracking, collaborating cross-functionally with Product, Marketing, and Analytics teams to translate business requirements into actionable digital analytics solutions.

Avanza Sports, Real Madrid Foundation

June 2024 – December 2025

Project Manager & Marketing Analytics Intern

- Led performance analysis of digital paid campaigns using Google Analytics and Tableau, optimizing content strategy and budget allocation, resulting in a 35% increase in followers and 40% growth in engagement over 3-month period.
- Monitored and interpreted key digital metrics across paid and owned channels, translating findings into clear optimization recommendations for stakeholders and agency partners.
- Supported event planning and logistics for Real Madrid Foundation Camps, ensuring smooth operations and a positive experience for participants and families having + 800 kids and +20 staff members every summer.

Sports Media Inc, Remote, Fairfield, CT

January 2025 – May 2025

Sports Marketing & Data Insights Analyst Intern

- Built and maintained Power BI dashboards with custom data models and KPI tracking to monitor social media performance across paid and organic channels, reducing reporting time by 40% and enabling faster, data-driven decision making.
- Analyzed multi-channel digital campaign data using Google Analytics, Excel, and Tableau, identifying performance trends and optimizing targeting and messaging, resulting in a 20% increase in CTR.
- Applied business analysis and market research methodologies to scope, design, and build a sponsor evaluation model in Excel, translating complex data into actionable commercial insights that contributed to securing 3 new brand partnerships with MLS teams.
